A WORD FROM OUR FOUNDER

The work of Nourish Every Child has never been more important than right now and thanks to the support of our generous donors we have been able to rise to the occasion. Life in Haiti in 2022 has been relentlessly difficult with continued political instability, violence, and rising inflation. The current inflation

rate in Haiti is 42% and it is having a significant impact on the lives of Haitians. The high prices of food, water, and other essential goods are making it difficult for people to feed their children.

These challenges resulted in a dramatic rise in the rates of malnutrition and children dropping out of school. Families were faced with impossible decisions, and many considered relinquishing their children to orphanages in hopes that they may receive a meal a day, saving them from starvation.

Nourish Every Child responded to these challenges by expanding our programs and providing support to more children and families than ever before. We increased the number of children we served daily meals and added our monthly chicken delivery program for additional nutrition support. We also provided scholarships to help more children

stay in school. These interventions have HUGE impacts, allowing these children to stay with their families receiving the love they deserve!

Our work has had a significant impact on the lives of children in Haiti. In 2022, we helped to prevent malnutrition in over 200 children, and we helped to ensure that these children remained in school. We are grateful for the support of our donors, and we look forward to continuing our work in 2023. Thank you for helping us to make a difference, the NEC children are not only surviving but thriving!

Sincerely,

Jennifer Burns
